Neutralizes pH as to not irritate skin. Prolongs fabric life. Remove hard water ions which can wear down fabric and make fabrics dull. Best when used in conjunction with the LAUNDRY CHOICE Laundry Program. Highly concentrated for low cost efficiency. User friendly packaging.

SOUR & SOFTENER

LAUNDRY CHOICE Sour & Softener is a combination product that neutralizes the pH of the finished wash, so it will not irritate the skin. Reduces fiber stress which will cause fiber damage. Softens and eliminates static cling. pH balanced to minimize graying or yellowing caused by Alkali residue. Best when used in conjunction with LAUNDRY CHOICE Laundry Program User friendly packaging. *Do not use on children's sleepwear or other garments labeled as flame retardant*

FABRIC CONDITIONER

Softens and eliminates static cling. Reduces rigidity of fabrics which reduces fiber damage and prolongs fabric life. Virtually reduces static cling from washed fabrics which make the surface of fabrics slightly conductive which reduces or prevents static charge build up. Best when used in conjunction with the LAUNDRY CHOICE Laundry Program. User friendly packaging.

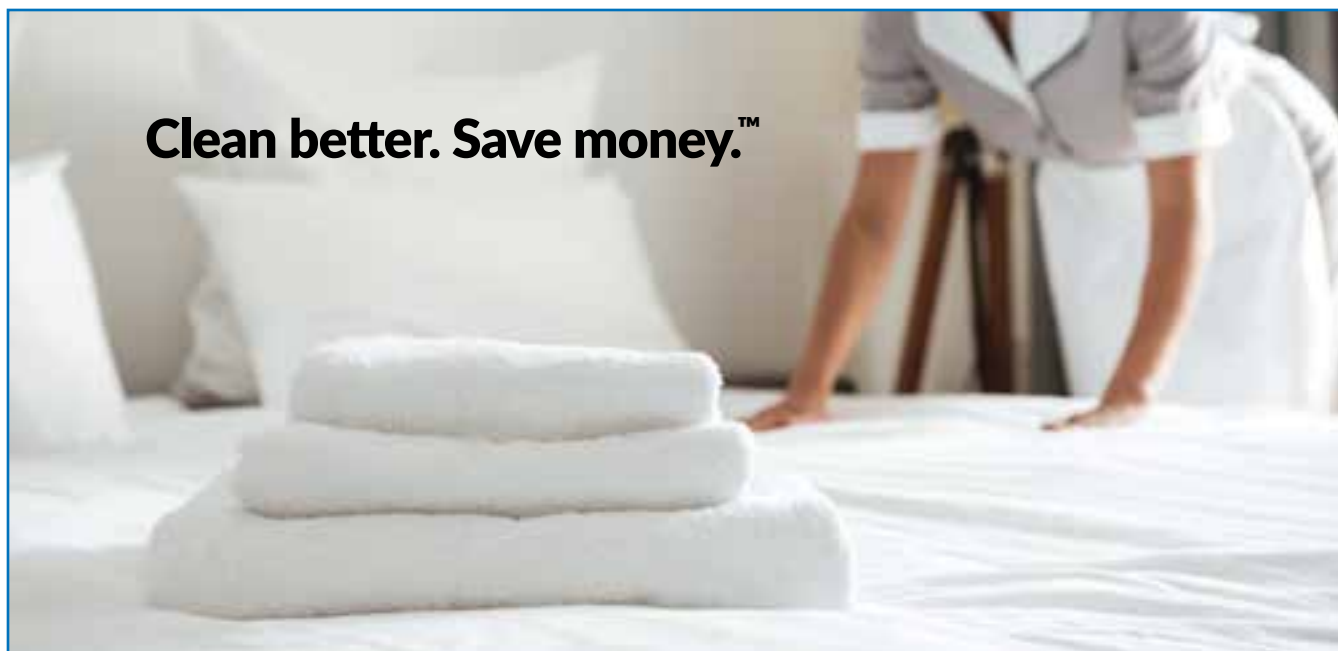

COLOR SAFE

DESTAINER

Enhances the performance of laundry detergent. Brightens colors and whitens whites. User friendly packaging.

DESTAINER

Enhances the performance of laundry detergent. Formulated with sodium hypochlorite, which will get your whites their whitest. Works best when used as a part of the LAUNDRY CHOICE Laundry Program. User friendly packaging. *Do not use on colored fabrics not recommended for use on wool, silk or microfiber.*

Proportioning Systems

Our partnership with Knight Equipment provides us with a full line of intuitive, cost effective and accurate chemical proportioning solutions.

ONE-SHOT DISPENSERS

One-Shot Liquid Dispensers are advanced microprocessor-controlled injection systems that feed precise amounts of institutional cleaning chemical to top load laundry machines with 17 lb. to 125 lb. capacity.

MX PLUS DISPENSERS

MX Plus dispensers are field serviceable and highly flexible proportioners, offering configurations that allow for up to eight products and two flow rates with a choice of Flex-Gap or Aire-Gap back flow prevention.

PRO-WATCH Drain Maintenance & Odor Control

Pro-Watch is a microprocessor based chemical dispensing system for grease traps, drains, and odor control. This easy-to-use system stores up to 20 dispensing events per day, programmable by minutes or seconds and is capable of independent settings for up to 7 days.

SINKMATE PLUS DISPENSERS

SinkMate Plus dispensers are the most field serviceable and adaptable in the industry. Tools are only needed to mount the backplate to a wall using the included screws and anchors. The cover and internal components utilize a simple yet effective tool-less design for easy serviceability and adaptability.

Warsaw Chemical has the capabilities to fill and package nearly any size container for your distribution needs. Package sizes can range from 2 ounce bottles up to 275-gallon totes and everything in between. We can also schedule tank load deliveries throughout country.
